

CHAPTER IV

FINDING OF THE RESEARCH

This chapter focuses on the research finding of the data which has been obtained to find out whether there is significant difference between the speaking ability of the eleventh grade students of SMA Negeri 1 Jepara in the academic year 2011/2012 before and after being taught by using British Parliamentary Debate Technique.

4.1 Finding of the Research

The data of this research are taken from the result of the test to measure the the speaking ability of the eleventh grade students of SMA Negeri 1 Jepara in the academic year 2011/2012 before and after being taught by using British Parliamentary Debate Technique. The writer gets the data as follow:

4.1.1 The Speaking Ability of The Eleventh Grade Students of SMA Negeri 1 Jepara in the Academic Year 2011/2012 before being Taught by Using British Parliamentary Debate Technique.

The writer conducts an oral test before the treatment is given to the students. The test is aimed to find know the speaking ability of the eleventh grade students of SMA Negeri 1 Jepara in the academic year 2011/2012 students before being taught by using British Parliamentary Debate Technique. The test is conducted at the first meeting before the treatment is given to the students in teaching and

learning process. After conducting the pre test to the students, the wrirer found that the highest score is 84 and the lowest score is 56.
